LOVE IN A TIME OF CLIMATE CHANGE: THE INTERSECTION OF REALITY AND HOPE FOR NEW MEXICO'S RIVERS

April 16, 2026 6:30 PM to 8:00 PM

For more than 20 years, Laura Paskus has written and produced stories about New Mexico's rivers, including the Middle Rio Grande. Join us for a presentation and conversation about what she's learned along the way — not just about climate change and water challenges, but about love, political courage, and connection.
