22 July 2021

Air Force Open House Still Set for July 22

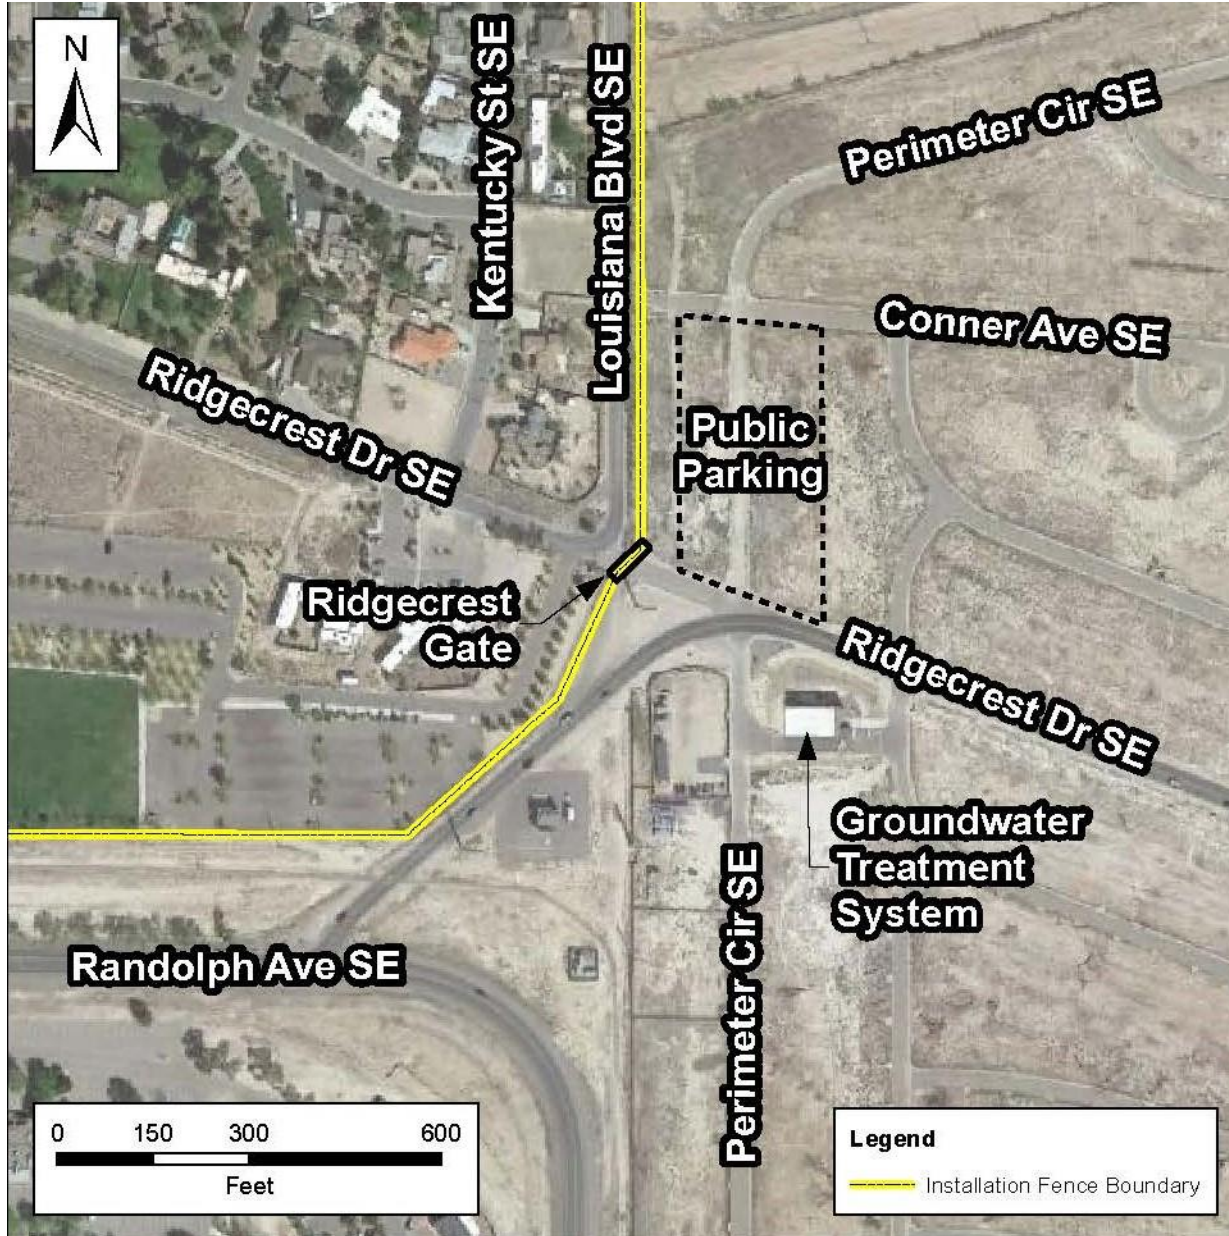

KIRTLAND AIR FORCE BASE, N.M. –The Air Force is monitoring weather forecasts for this evening, and still plans to host the Open House, Thursday, July 22, at the Bulk Fuels Facility Groundwater Treatment System facility on Kirtland AFB from 5:30 p.m. to 7:30 p.m.

Because public safety is our primary concern, we are continuing to monitor weather conditions throughout the day.

If the situation worsens later, we will send out a notification that the event will be postponed to a later date.

The Open House at the Groundwater Treatment System facility is an opportunity to learn about work being done to remove groundwater contamination caused by a historical leak at the former base Bulk Fuels Facility. Guests will be able to access the facility from the Ridgecrest Drive Gate. Because of this special event, normal security procedures will not be required for entry at this location. No weapons or illicit substances allowed.

We hope that you will join us for a closer look at our progress, after more than one year of COVID related restrictions.

Air Force environmental experts will be available at the facility to explain clean-up activities and answer questions.

For more information, please contact Brannon Lamar at the 377 Air Base Wing/Public Affairs (at 505)846-5991 or by email, brannon.lamar@us.af.mil.
