

FOUR SPANISH TYPE HOUSES STARTED IN GRANADA HEIGHTS

The dream city on a hill, vision-
ed by Mrs. Katherine Patterson
and Mrs. Minnie Byrd, when they
opened Granada Heights for build-
ing, is beginning to take tangible
form. Several residences in Span-
ish and Indian architecture are be-
ing started in this exclusive resi-
dence district adjoining Nob Hill.
These sisters, Mesdames Patterson
and Byrd, experienced in develop-
ing city districts, having contract-
ed with A. Rossiter to build on the
corner of Carlisle and Lomalinde
avenues an artistic six-room adobe
dwelling to be plastered white like
all the Spanish houses to be built
on this hill. The Patterson-Byrd
home will have sun rooms, heating
plant, yet wholly Spanish. On the
next corner facing the Sandias,
Mr. and Mrs. John Strumquist will
construct a six-room tile residence
to be equipped with electric refrig-
eration machine and oil burner in
the furnace basement. Coral tile
hoods and black iron grillwork on
three porches will offset the white
walls of this house. Mr. and Mrs.
R. F. Hulick are building also on
Hermosa avenue, adjoining the
Strumquist lots, a pretentious, pic-
turesque Aztec Indian house, mod-
eled after a historic Aztec man-
sion in Mexico City. Mr. Hulick,
who has used advantageously the
rose-tinted lava rock for building
fireplaces, porch pillars and chim-
neys in other local houses, may

have another rose pink fireplace
of lava rock.

Mrs. Gertrude Byrd is ready to
begin construction of a six room
adobe Spanish type home with
wide porches, and modern equip-
ment on Hermosa avenue adjoin-
ing the Hulick property. Three
other homes not yet ready for con-
tractors, are to begin construction
after the holidays.
