

INTRODUCTION TO: GREEN STORMWATER INFRASTRUCTURE & RAINWATER HARVESTING

Join us for a community meeting to learn more about an upcoming small green stormwater infrastructure (GSI) project in your neighborhood. GSI, also known as rainwater harvesting, is a nature-based solution for our arid climate that can provide many benefits to both people and nature.

EVENT DETAILS:

- Learn about how GSI works and its benefits.
- Learn about the upcoming GSI project at Silver Ave. and Solano Dr.
- Learn about opportunities to get engaged with the project.
- Get connected with resources for installing passive rainwater harvesting at your home.
- Visit the project site with your neighbors!
