

Call for Volunteers

Hands-on Rainwater Harvesting Workshop

Saturday, March 28, 8:00 a.m. – 1:00 p.m.

Nob Hill, Albuquerque, NM

Come help your neighbors capture the rain to support native plants! In this workshop, volunteers will learn the steps to plan, install, and maintain rainwater harvesting features in a residential-scale yard or landscape.

Volunteers will:

- Gain hands-on experience in designing and building rainwater harvesting features
- Use everyday tools to install basins, swales, and/or soil sponges
- Learn to plant and care for native vegetation that thrives on rainwater

Register Today!

Limited to 20 participants, first come first served.
