

On Thursday June 8th eleven FOSM volunteers and the TTYL/YCC crew, accompanied by SRD Trails Crew member Jeff Cervantes for a couple hours, hiked in 2.25 miles on 10K North to continue work on a long realignment that the SRD has been working on for a couple years. The crews built new trail along this reroute in the vicinity of the 10KN-Ellis junction. FOSM volunteers benched tread along steep sideslope while the youth crew built trail on a flatter section. Temps were pleasant, which helped a lot on the long hike out along the Ellis Trail (three crew members hiked to 10K parking and drove to the Ellis trailhead to shuttle people back to their vehicles).

The FOSM volunteers were Dan Benton, Claudia Bergsohn, David Bernstein, Jenny Blackmore, Luis Cuadros, Byron Garner, Jim Houle, Rav Nicholson, Bill Perkins, Eric Russell and Scott Sunde.

The TTYL/YCC crew were: Jared Moyers (crew leader), Kineo Memmer (assistant crew leader), Ella Cook, Levi Gloetzner, Robbie Larrison, Olivia Lopez and Mari Salley.

Photos by Jenny Blackmore unless otherwise noted.

.....
A wide bench. An SRD crew had cleared the corridor.

Later, some of the FOSM crew jump ahead to work on the flats

Byron removes a limb which encroaches on the new trail

Scott and Claudia find some spots that need a little help

Kineo, Olivia, Robbie and Mari in the groove

Ella and Levi from the TTYL/YCC crew.
Beyond Byron in the background you can almost see
the 10K-Ellis junction. The reroute is nearly finished!

Calypso orchid!
