Re: Support for Albuquerque Clean and Green Retail Ordinance

Dear Councilor Davis,

It is a pleasure to advise you that the Nob Hill Neighborhood Association board of directors recently voted unanimously in support of Albuquerque's Clean & Green Retail Ordinance (O-19-48) sponsored by you and Councilors Benton, Gibson and Borrego.

We believe Albuquerque needs to join over 200 cities and 32 countries that have already banned or limited single-use plastic bags as well as over 100 cities that have banned polystyrene containers. This ordinance will enhance the health of residents and the beauty of the city.

Please pass along our support to the Council and advance this important proposal to fruition so that current and future generations can enjoy the benefits of living in a healthy and clean city.

Kind regards,

Gary Eyster, President
